Welcome to Our Company

RenewEdge Packaging is a professionally managed manufacturing company based in Baddi, Himachal Pradesh, specializing in LDP (Low-Density Polyethylene) and LLDP (Linear Low-Density Polyethylene) shrink films and bags.

Driven by a commitment to quality, sustainability, and innovation, we manufacture high-performance flexible packaging solutions designed to meet the evolving needs of modern industries. Our products serve a wide range of sectors, including pharmaceuticals, FMCG, beverages, food, and industrial goods.

Our state-of-the-art manufacturing facility is equipped with advanced extrusion, sealing, and film-processing machinery, enabling us to deliver consistent quality, excellent mechanical strength, and superior clarity across all product lines.

At RenewEdge Packaging, we focus on delivering packaging solutions that protect products, enhance shelf appeal, minimize material waste, and remain cost-effective, while adhering to environmentally responsible manufacturing practices. Our goal is to build long-term partnerships by offering reliable, efficient, and sustainable packaging solutions.

Vision Statement

To become a leading and trusted name in the flexible packaging industry, recognized for manufacturing high-quality LDP and LLDP shrink films and poly packaging materials that combine innovation, performance, and sustainability.

We aspire to set industry benchmarks through continuous improvement, responsible manufacturing practices, and long-term partnerships with our customers, while contributing positively to environmental protection and resource conservation.

Mission Statement

Our mission is to manufacture and supply superior-quality, eco-friendly, and cost-effective packaging solutions that meet international quality standards and cater to the diverse needs of pharmaceuticals, FMCG, food, beverage, and industrial sectors.

We are committed to:

- ✓ Advanced technology for consistent quality and reliability
- ✓ Sustainable, recyclable, and eco-friendly packaging solutions
- ✓ Strict quality control at every stage of production
- ✓ Value-driven packaging that enhances protection and presentation

Core Values

At RenewEdge Packaging, our core values guide every aspect of our operations. We uphold the highest standards of integrity and transparency, ensuring ethical business practices and open communication at all levels. Our commitment to consistent quality assurance is reinforced through strict quality control measures and adherence to international standards. We foster innovation and continuous improvement by adopting advanced technologies and refining our processes to deliver better-performing packaging solutions.

✔ **Integrity & Transparency**

✔ **Uncompromised Quality**

Quality Commitment

Quality is the foundation of RenewEdge Packaging. Every batch of material undergoes rigorous quality checks to ensure consistent performance, reliability, and full compliance with customer specifications. We use 100% virgin-grade raw materials, sourced from reputed polymer manufacturers, to deliver packaging solutions that offer superior strength, clarity, and long-lasting durability.

- Rigorous quality checks at every stage of production.
- Consistent performance and compliance with customer specifications.
- Use of 100% virgin-grade raw materials from reputed suppliers.
- Superior strength, clarity, and durability in every batch.
- Continuous process monitoring & improvement.
- Commitment to international quality standards.

What WE OFFER?

Shrink Films

LDP & LLDP Shrink Films
(Transparent/Natural)

Printed Shrink Films
(as per customer requirement)

Center Fold, Lay Flat
& Single Layer Shrink Rolls

Shrink Bags

Custom-Sized LDP/LLDP
Shrink Bags

High Clarity & Superior
Shrink Ratio

Suitable for Multipack, Pallet &
Industrial Wrapping Applications

Continued..

Poly Bags & Liners

LDP/ LLDPE/ HDPE Bags

Box Liners & Inner Poly Covers

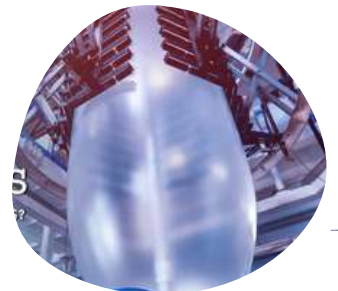

Heavy Duty Industrial Bags

Key Features of Our Products

Clarity That Protects. Strength That Lasts.

- High Clarity & Excellent Gloss for enhanced product visibility and shelf appeal.
- Strong Shrink & Seal Strength ensuring secure and tamper-resistant packaging.
- Uniform Thickness & Consistent Film Quality for reliable performance.
- Moisture & Dust Resistance to protect products during storage and transit.
- High Tear & Puncture Strength for durability in demanding applications.
- Customizable Sizes, Thickness & Printing Options to meet specific customer requirements.

Infrastructure/ Facilities

RenewEdge Packaging operates a modern manufacturing facility equipped with advanced LDP and LLDP extrusion lines designed to deliver consistent output, uniform thickness, and superior film clarity. Our production setup includes high-speed cutting and sealing machines that ensure precision, efficiency, and strong seal integrity across various packaging formats.

We maintain in-house printing and film inspection facilities, allowing us to offer customized branding solutions while ensuring every roll and bag meets defined quality parameters. Our operations are supported by an experienced technical and quality control team that closely monitors each stage of the manufacturing process, from raw material handling to final dispatch.

Additionally, our dedicated R&D team works continuously on product development and process optimization, enabling us to provide customized packaging solutions that meet specific customer requirements while maintaining performance, cost efficiency, and sustainability.

Industries We Serve

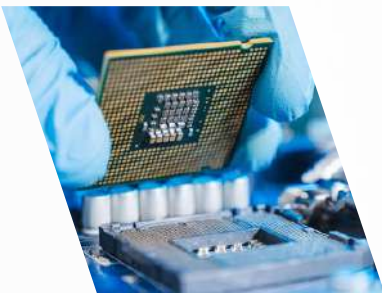

Pharmaceutical & Healthcare

FMCG & Consumer Goods

Food & Beverage Industry

Electrical, Electronics

Industrial Products

Chemical Industries

Agro-based Industries

Automobiles Industries
